Moved: Gordon Muir      Seconded: Marty Mikosch      Carried

**President's Report:** Read by Robert Maslin

2009 has been a year which sadly began with the tragic loss of Tom Moon, an aerobatic legend, a man who was everybody's friend. His loss has been felt throughout the aviation community, and particularly at Temora where Mr Magic and his aerobatics were admired and now lost forever.

Our club year has been successful with many, many events happening throughout the year. The Flying Training School operated by C.F.I. Jill Bailey continues to flourish, bringing many people to the club. The recent human factor course ran by the school was very popular and of high standard. The popularity of flying training has required the club to upgrade the Tecnam aircraft to a much newer model, as well as build a new briefing room. With all this expenditure we still find the club to be financially very sound.

The Aviation Estate continues to grow with a number of new houses and hangars under development, and this is bringing special people who are now calling Temora airport their home. The airport is now becoming a community in itself and justifies the support and effort the Temora Shire council has given.

The Aviation Museum continues to attract large numbers of visitors and our support is ongoing while our relationships with all other airport users are harmonious and positive.

During the year our committee worked will together and I would like to thank all our members and in particular my fellow directors for their help and assistance. It has been a good year and my hope is that 2010 can be even better.

Robert W Maslin

Motion that President's report be accepted:

Moved: Kari Piilonen Seconded: Mervyn Macauley Carried
